## Form of Hearing

Energy Probe believes that a technical conference, followed by a settlement conference and written submissions would be an appropriate manner to proceed.

## Costs

Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in proceedings would be very limited. Energy Probe intends to seek a cost award in this proceeding, and expects to intervene responsibly, cognizant of the Board's guidelines regarding cost awards.

## Communications

Communications relating to this Intervenor and Cost Eligibility Request Letter and all documents filed with the Board by the applicant and required by Energy Probe, should be directed to its consultant:
