EB-2022-0072

ENBRIDGE GAS INC.

**Consultation to Review Enbridge Gas Inc.'s 2022 Annual
Update to Natural Gas Supply Plan**

By Delegation, Before: Theodore Antonopoulos

April 7, 2022

INTRODUCTION

On March 11, 2022, the Ontario Energy Board (OEB) announced in a letter ([Initiation Letter](#)) a consultation to review the annual update to Enbridge Gas Inc.'s (Enbridge Gas) five-year natural gas supply plans (GSP) in keeping with the GSP assessment process contemplated in the OEB's *Report of the Board: Framework for the Assessment of Distributor Gas Supply Plans* ([Gas Supply Framework](#))¹.

In the Initiation Letter, the OEB set out a process to review the annual update to the GSP, including the scheduling of a Stakeholder Conference on May 5-6, 2022. Parties interested in participating in the consultation were asked to indicate their intent, including any request for cost eligibility, by filing a letter with the OEB by March 25, 2022. If Enbridge Gas had any objections to any of the requests for cost eligibility, such objections were to be filed with the OEB by April 4, 2022.

The following parties requested to participate in the consultation (* denotes a request for cost eligibility):

- Canadian Manufactures & Exporters (CME)*
- City of Kitchener – Utilities Division (Kitchener)
- Consumers Council of Canada (Council)*
- Energy Probe*
- Environmental Defence (ED)*
- Federation of Rental-housing Providers of Ontario (FRPO)*
- Industrial Gas Users Association (IGUA)*
- London Property Management Association (LPMA)*
- Ontario Petroleum Institute (OPI)
- Ontario Sustainable Energy Association (OSEA)*
- Pollution Probe*
- School Energy Coalition (SEC)*
- Six Nations Natural Gas Company Limited (SNNG)
- TransCanada PipeLines Limited (TCPL)
- Vulnerable Energy Consumers Coalition (VECC)*

On April 4, 2022, Enbridge Gas filed a letter with the OEB indicating there were no objections to the cost eligibility requests.

This cost eligibility Decision is being issued by delegated authority under section 6 of the *Ontario Energy Board Act, 1998*.

OEB Findings

The Stakeholder Conference will be held virtually. All parties that filed letters of intent with the OEB will be sent the virtual meeting details for the Stakeholder Conference in a subsequent communication.

The OEB has reviewed the requests for cost eligibility from parties to ensure they were compliant with section 3 of the OEB's [Practice Direction on Cost Awards](#). All requests for cost eligibility are granted. Parties are reminded that any awards of costs will be dependent on the extent to which the parties' questions and submissions relate directly to Enbridge Gas's GSP and are within the scope of the consultation (i.e., to the extent the parties assess Enbridge Gas's GSP against the guiding principles and criteria outlined in the Gas Supply Framework).

The OEB also notes that there are stakeholders with overlapping interests. The OEB expects that participants with similar viewpoints will coordinate their activities to the extent possible in order to increase efficiency and minimize costs.

A decision and order on cost awards will be issued at a later date, typically at the end of the consultation. The OEB reminds parties that the maximum hours allocated for each activity are per party. As provided in the Appendix A of the Initiation Letter², cost awards will be available for the following activities:

ACTIVITY	TOTAL ELIGIBLE HOURS PER PARTICIPANT
Written questions	Up to a maximum of 10 hours
Preparation for the Stakeholder Conference	Up to a maximum of 2 hours
Attendance at Stakeholder Conference	Actual attendance time
Written comments on gas supply plan	Up to a maximum of 12 hours
