Re: Reliability and Power Quality Review (RPQR) Regulatory Framework
AMPCO Cost Eligibility Request
Board File No. EB-2022-0002

Dear Ms. Marconi:

I am writing pursuant to the OEB's letter dated March 31, 2022 regarding the above proceeding to indicate AMPCO's interest in participating in the RPQR Working Group and if selected, to request cost eligibility.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

AMPCO's interest in participating in the RPQR Working Group relates to power quality issues, reliability reporting, benchmarking and the development of an analytics framework. Individual AMPCO members experiencing power quality issues or other reliability concerns may also seek to participate in the Working Group.

If AMPCO is selected to participate in the Working Group, we respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter,

Notice

Please serve all correspondence pertaining to this proceeding to AMPCO's representative as follows:

Ms. Shelley Grice, P. Eng., Consultant
46 Scarborough Road
Toronto, Ontario M4E 3M5
