

Ms. Nancy Marconi
Registrar
Ontario Energy Board
P.O. Box 2319, 27th Floor
2300 Yonge Street
Toronto, ON M4P 1E4

April 22, 2022

**EB-2022-0088 – Haldimand Shores Expansion Leave to Construct
Pollution Probe Intervention Request**

Dear Ms. Marconi:

Pollution Probe received the notice for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe represents a direct consumer and policy interest related to this proceeding.

Pollution Probe is a frequent intervenor in Board proceedings, including facility Leave to Construct applications and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/724793/File/document>

Enbridge has indicated a desire for confidential treatment of certain information in its application. Pollution Probe has not included comments in this letter related to confidential treatment by Enbridge. Pollution Probe understands that would be part of the process outlined by the OEB in this proceeding. If that is not a correct assumption, Pollution Probe will submit comments as determined by the OEB on confidential treatment of the information requested by Enbridge. From an initial assessment, it appears that some business information has been redacted that does not qualify as personal information when used for business purposes.

Pollution Probe supports Enbridge's request for a written proceeding for this Leave to Construct application and believes relevant issues can be assessed within a written approach.

Goals and Objectives

Pollution Probe intends to participate in all aspects of this proceeding with a focus on costs, routing, alternatives and net Environmental and Socio-economic issues (including several watercourses and a Provincially Sensitive Wetland) related to the proposed project. Pollution Probe notes that the Environmental Report was not filed in support of this application, but a weblink was provided in Exhibit E Tab 1 Schedule 1 Attachment 1. It is standard practice to file the Environmental Report on the public record and the OEB electronic filing system (RESS) enhancements were developed to enable those documents to be filed. It is requested that the Environmental Report be added to the public record (i.e. OEB web docket) for this proceeding.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

Notice

Pollution Probe requests that further communications with respect to this matter be sent to:
