Dear Nancy Marconi:

**Re: Enbridge Gas Inc. (Enbridge Gas)
Ontario Energy Board (OEB) File: EB-2021-0002
Multi-Year Demand Side Management Plan (2022-2027)
EGI Correspondance re: Kent Elson Correspondance April 21, 2022**

Enbridge Gas is writing to respond to the letter submitted by Kent Elson on behalf of Environmental Defense (“ED”) on April 21, 2022. In this letter Enbridge Gas is asked to confirm that a job posting description is for a Senior Advisor as part of the Municipal Energy Solutions team within the DSM group as described in evidence. The letter then goes on to state that ED has concerns if this senior advisor role does not advocate or support electrification of buildings in his/her communications both internally and externally. Lastly it states that if Enbridge Gas declines to answer it will ask for an order from the OEB under s. 11 of the OEB’s Rules of Practice and Procedure.

Enbridge Gas does not believe that Rule 11 is applicable as what is being asked for is not necessary for the OEB to obtain a full and satisfactory understanding of this issue.¹ The Company would like to note that it has been clear on it’s position on natural gas low carbon solutions throughout the proceeding as evidenced at Exhibit E, Tab 3, Schedule 1 and further explored and confirmed during the oral hearing (ex. Transcript from March 28, 2022, page 154 and page 192, Transcript from March 29 pages 37-38). As such the Company does not believe anything further is required for the OEB to fully understand the position of the Company on this topic and to make a Decision on this application.

Please contact the undersigned if you have any questions.

Yours truly,

Asha Patel
