These increases are to high. I am almost paying more in fees than I am for actual usage. I can't keep up with all these increases in absolutely everything. Milton hydro should be responsible for these fees, not the consumer, they are already profiting greatly. Perhaps they should decrease the amount they pay themselves in bonuses and salaries.

I have already switched all my lights, appliances etc to save money, any every time I do, these fee increases come in and it was all for nothing.

When will OEB finally stand up for the little person ?
