1 June 2022

Ms. Nancy Marconi
Acting Registrar
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, Ontario
M4P 1E4

Dear Ms. Marconi,

**Re: Kingston Hydro Corporation _Electricity Distribution License ED-2003-0057
2023 Cost of Service Rate Application (EB-2022-0044) _Delay in Filing**

Kingston Hydro Corporation ("Kingston") was scheduled to file a rebasing application for distribution rates effective January 1, 2023, with a filing date of April 30, 2022.

On April 13, 2022 Kingston filed a delay in filing letter with the Ontario Energy Board, expecting to file by June 3, 2022. Kingston has been diligently working on its rebasing application to comply with the revised filing requirements issued April 18, 2022.

However with the release of the 2023 models on May 27, 2022, Kingston is now transferring and updating its data and evidence to confirm to the models that were released.

Kingston does not anticipate being able to file its cost-of-service rate application with the OEB by end of day Friday, June 3, 2022 and believes its evidence and application will now be able to be filed by with the OEB by end of day Friday, June 17, 2022

Despite the application filing delay, Kingston is hopeful that its application can still be processed in time for rebased rates to be effective and implemented for January 1, 2023.

Yours truly,

Randy Murphy
Chief Financial Officer and Corporate Secretary
