Dear Ms. Marconi:

**Re: EB-2022-0174: Quarterly Rate Adjustment Mechanism (“QRAM”) Application  
EPCOR Natural Gas LP (“EPCOR”) Southern Bruce for rates effective July 1, 2022**

---

In response to OEB Staff’s letter of comment received June 15, 2022, specifically page 5:

*OEB staff notes that the near-term impact of the preferred approach on a typical residential customer over the next three months, subject to EPCOR’s confirmation in its reply letter, is a total bill increase of approximately \$22, whereas the rate mitigation approach results in a total bill increase of approximately \$18 over three months. In other words, the rate mitigation approach only reduces the total bill impact by a little more than \$1/ month.*

EPCOR confirms this statement to be accurate.

Sincerely,
