AMPCO-1

Power Advisory uses the increase/decrease in congestion rents as a part of the proxy for benefit to loads via reduced system costs.

- a) Please provide the value of the payments made from the account to TR rights holders.
- b) Please discuss the impact on the benefit calculation if the TR payouts to rights holders/TRA Surplus is factored into the analysis.

AMPCO-2

Please provide an opinion as to whether and how the implementation of Market Renewal would change Power Advisory's findings.

AMPCO-3

Please discuss the view of Power Advisory on Surplus Baseload Generation (SBG) in the future.
