Re: Alectra Utilities Corporation – ICM Application
AMPCO Intervention Request
Board File No. EB-2022-0013

Dear Ms. Marconi:

I am writing pursuant to the OEB's Notice regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO has been approved by the OEB as an intervenor in previous Alectra ICM proceedings.¹

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

In this application, Alectra seeks approval of an Incremental Capital Module (ICM) for underground cable renewal projects in the PowerStream Rate Zone and the Enersource Rate Zone for 2023 and 2024. AMPCO is intervening to review the appropriateness of the ICM and underlying projects.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter.
