**Re: EB-2022-0140 – Hydro One Networks Inc. Leave to Construct Application – Chatham by Lakeshore
Pollution Probe Intervention Request**

Dear Ms. Marconi,

Pollution Probe is in receipt of the notice for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe has been an active participant in facility proceedings, including Leave to Construct applications. Pollution Probe represents the direct interests of consumers and an interest and policy perspective relevant to the Board's mandate in this proceeding.

Pollution Probe is a frequent intervenor in Board proceedings and a copy of the current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/724793/File/document>

Goals and Objectives

Pollution Probe intends to participate in all aspects of this proceeding with a focus on project scope, timing, alternatives, financials, net benefits and consideration of system impacts over the life of the proposed assets.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible. Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, community and environmental interests in Ontario.
