Dear Ms. Burke:

Re: **EB-2021-0110 Hydro One Networks Inc.'s 2023-2027 Application for Transmission and Distribution Rates (JRAP) / Settlement Conference Schedule**

This letter is in response to your letter dated July 11, 2022, and Hydro One's updated response to undertaking JTU 2.23 in the above-captioned proceeding. A settlement conference for this proceeding is scheduled for August 15 to August 18, 2022.

In the updated undertaking response, Hydro One provided estimated capital costs for May 2022 storm damage and proposed an approach to addressing these costs in the context of the JRAP application. Hydro One also stated that actual storm damage costs will be provided in early August.

The OEB informs all parties that the updated undertaking response and the additional information which Hydro One will provide in early August will be discussed on August 15, 2022, prior to the start of the settlement conference and that this discussion will be transcribed and placed on the public record. The settlement conference will begin immediately following that session. OEB staff will contact the parties after Hydro One has filed and delivered its information in early August to establish a schedule for the August 15, 2022 session.

Yours truly,

Nancy Marconi
Registrar
