Dear Ms. Marconi:

**Re: Generic Proceeding on UTR-Related Issues and the Export Transmission Service
("ETS") Rate
Technical Conference Undertaking Responses
OEB File No.: EB-2021-0243**

Further to our letter dated August 4, 2022 regarding the above-noted subject matter, APPrO wishes to supplement its submissions on the confidential treatment of Power Advisory's response to Undertaking No. JT2.2, including the model on which Power Advisory's calculations are based ("**Model**").

Section 4 and Appendix B of the OEB's *Practice Direction on Confidential Filings* ("**Practice Direction**") sets out categories of information that will presumptively be considered confidential.¹ One of the categories of information in Appendix B of the Practice Direction is an "underlying dataset and/or model of a consultant retained by a party". The Model clearly falls within this category and is presumptively confidential. If you have any questions or concerns, please do not hesitate to contact me.

Yours very truly,
BORDEN LADNER GERVAIS LLP
