

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act 1998*,
S.O.1998, c.15, (Schedule B) (the “**Act**”);

AND IN THE MATTER OF an Application by EPCOR Natural Gas Limited Partnership pursuant to section 36 of the Act, for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of gas to be effective January 1, 2023.

AFFIDAVIT OF SERVICE

I, **Tim Hesselink**, residing in the Town of Collingwood in the Province of Ontario, Canada, make **OATH AND SAY** as follows:

1. I am employed as the Senior Manager, Regulatory Affairs for EPCOR Natural Gas Limited Partnership (“ENGLP”) and as such, I have knowledge of the matters hereinafter deposed to.
2. On June 27, 2022 I filed with the Ontario Energy Board (the “Board”) ENGLP’s 2023 incentive rate application for the Aylmer territory, for rates effective January 1, 2023 (the “Application”).
3. In accordance with the July 14, 2022 Letter of Direction issued by the Board, I caused to be served by email a copy of the Notice of Hearing (“Notice”) for ENGLP’s Application (Exhibit “A”) and the Application and evidence (Exhibit “B”). The Notice, Application and evidence were served on the following parties as requested by the Board in the Letter of Direction:
 - a. All intervenors in EB-2018-0336 (Exhibit “C”);
 - b. Enbridge Gas Inc. (Exhibit “C”); and
 - c. The clerks of all municipalities in which ENGLP (Aylmer) supplies gas (Exhibit “C”)
4. EPCOR did not serve a copy of the Notice, Application and evidence, directly on a band council. I am informed and verily believe that the Aylmer operations do not supply gas to Indigenous Communities or First Nation Reserves with a band council.

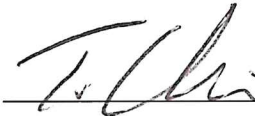

5. In accordance with the Letter of Direction, I caused a copy of the Notice, Application and evidence to be placed in a prominent place on ENGLP's website. Attached as Exhibit "D" is proof of the information posted on ENGLP's website.
6. I am informed and verily believe that due to the Covid-19 pandemic and for health and safety reasons, ENGLP's office is not currently open to the public; however, a copy of the Notice, Application and evidence will be made available to a public member upon request.

**ONTARIO ENERGY BOARD NOTICE
TO CUSTOMERS OF
EPCOR NATURAL GAS LIMITED PARTNERSHIP
SERVED BY ITS AYLMER OPERATIONS**

EPCOR Natural Gas Limited Partnership has applied to change its natural gas rates.

Learn more. Have your say.

EPCOR Natural Gas Limited Partnership has applied to the Ontario Energy Board to change its natural gas rates, effective January 1, 2023, based on an OEB-approved formula that is tied to inflation and other factors intended to promote efficiency. EPCOR Natural Gas Limited Partnership has also applied for approval to dispose of the balances in certain deferral and variance accounts. If the application is approved as filed, the annual natural gas bill of a typical residential customer and a typical commercial customer, served by EPCOR Natural Gas Limited Partnership's Aylmer operations, would decrease by the following amounts:

Rate Class	Annual Bill Change
General Service Residential	-\$7.56 per year
General Service Commercial	-\$7.74 per year

Other customers may also be affected.

The above-noted rate change is a decrease because the requested increase in delivery rates is offset by decreases resulting from the recovery of certain deferral and variance account balances.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider the application filed by EPCOR. During the hearing, which could be an oral or written hearing, we will question EPCOR on the request for a rate change. We will also hear questions and arguments from individuals that have registered to participate (called intervenors) in the OEB's hearing. At the end of this hearing, the OEB will decide what, if any, rate change will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process.

- You can review EPCOR's application on the OEB's website now
- You can file a letter with your comments, which will be considered during the hearing
- You can become an intervenor. As an intervenor you can ask questions about EPCOR's application and make arguments on whether the OEB should approve EPCOR's request. Apply by **August 3, 2022** or the hearing will go ahead without you and you will not receive any further notice of the proceeding
- At the end of the process, you can review the OEB's decision and its reasons on our website

The OEB does not intend to provide for an award of costs for this hearing.

LEARN MORE

Our file number for this case is **EB-2022-0183**. To learn more about this hearing, find instructions on how to file a letter with your comments or become an intervenor, or to access any document related to this case, please enter the file number **EB-2022-0183** on the OEB website: www.oeb.ca/participate. You can also phone our Public Information Centre at 1-877-632-2727 with any questions.

ORAL VS. WRITTEN HEARINGS

There are two types of OEB hearings – oral and written. EPCOR has applied for a written hearing. The OEB is considering this request. If you think an oral hearing is needed, you can write to the OEB to explain why by **August 3, 2022**.

PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. However, your personal telephone number, home address and email address will be removed. If you are a business, all your information will remain public. If you apply to become an intervenor, all information will be public.

This rate hearing will be held under section 36 of the Ontario Energy Board Act, 1998, S.O. 1998, c.15 Schedule B.

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O. 1998, c. 15 (Sched. B), as amended (the “**OEB Act**”);

AND IN THE MATTER OF an application by EPCOR Natural Gas Limited Partnership pursuant to section 36(1) of the OEB Act for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of gas to be effective January 1, 2023 for the EPCOR Natural Gas Limited Partnership gas distribution system to serve Aylmer and surrounding areas with its service territory.

APPLICATION

Background:

1. The Applicant is EPCOR Natural Gas Limited Partnership (“EPCOR”), an Ontario limited partnership with offices in the Town of Aylmer and Kincardine. It carries on the business of selling and distributing natural gas within the province of Ontario. EPCOR is a wholly owned indirect subsidiary of EPCOR Utilities Inc. (“EUI”). The general partner of EPCOR is EPCOR Ontario Utilities Inc., an Ontario corporation, which is a subsidiary of EUI and the sole limited partner is EPCOR Commercial Services Inc., an Alberta corporation. EPCOR was formed pursuant to a limited partnership agreement which provides that EPCOR Ontario Utilities Inc., as general partner, will control and have the full and exclusive power, authority and responsibility for the management and day-to-day operations of EPCOR. In accordance with the limited partnership agreement, EPCOR Commercial Services Inc., as limited partner, has an economic interest in the partnership but does not control or otherwise play a role in the day-to-day operations and management of EPCOR.
2. EPCOR provides natural gas distribution services to over 9,000 customers in the Aylmer area in the Townships of Malahide and South-West Oxford; Municipalities of Bayham, Thames Centre and Central Elgin; and Norfolk County. EPCOR is also developing a greenfield natural gas distribution utility (“Southern Bruce”) to service the Municipality of Arran-Elderslie, the Municipality of Kincardine and the Township of Huron-Kinloss.

Southern Bruce, which is a division of EPCOR, connected its first customers in the third quarter of 2020.

3. EPCOR's current tariffs for its Aylmer operations were approved in its most recent cost of service application, which set rates for the period January 1, 2020 to December 31, 2024.¹ Furthermore, in the same proceeding, the Ontario Energy Board (the "Board") issued its Decision and Interim Rate Order dated July 4, 2019 (the "Decision") wherein it approved the settlement proposal submitted by the parties (the "Settlement Proposal"). The Settlement Proposal included the establishment, continuance or closure of certain deferral and variance accounts and the agreed upon Incentive Regulation ("IR) Plan for the period 2021 to 2024 ("IR Term").
4. As per the Settlement Proposal, EPCOR must file an annual IR Adjustment application to adjust rates for its natural gas distribution service for the Aylmer area, in accordance with the IR Plan approved as part of proceeding EB-2018-0336. The approved IR Plan includes (a) an annual Price Cap Adjustment; (b) specified Y-factors recovered through associated deferral and variance accounts; (c) use of Z-factor adjustments; (d) adjustment for future tax changes; (e) use of an incremental capital module; (f) an earnings dead band off-ramp; and, (g) an asymmetrical Earnings Sharing Mechanism.
5. In order to ensure timely disposition of its approved deferral and variance accounts, EPCOR is to bring forward for disposition the audited balances of such accounts on an annual basis.
6. Through this 2023 Incentive Rate Adjustment application (the "Application") EPCOR is seeking to make adjustments to its rates and charges for its natural gas distribution service for the Aylmer service area effective January 1, 2023 to reflect the elements of its approved IR Plan, and dispose of specific deferral and variance account balances.

¹ See Board Proceeding EB-2018-0336, Rate Order dated November 14, 2019.

Order Requested:

7. In this Application, EPCOR is applying for an order or orders granting that:
- a. Distribution rates for its natural gas distribution service for the Aylmer area be adjusted and updated effective January 1, 2023 in accordance with the settlement proposal and IR Plan approved in the Decision, including:
 - i. Increasing the monthly fixed charge for Rate 1 by \$1.00;
 - ii. Increasing the volumetric charges for Rate Class 1 to achieve a total projected revenue for 2023 for Rate Class 1 equivalent to the prior year OEB approved revenue for Rate Class 1 increased by the approved Price Cap Adjustment formula; and,
 - iii. Increasing the monthly fixed charges and volumetric charges for all other rate classes using the approved Price Cap Adjustment formula, including an adjustment of the fixed/variable proportions to align with the settlement agreement.
 - b. Approval for the disposition of the audited December 31, 2021 balances for the following approved deferral and variance accounts associated with its natural gas distribution service for the Aylmer area through the implementation of the proposed rate riders for twelve months commencing January 1, 2023:
 - Regulatory Expense Deferral Account ("REDA");
 - Purchased Gas Transportation Variance Account ("PGTVA");
 - c. Such further Order or Orders as ENGLP may request and the Board may deem appropriate or necessary.

Additional Considerations and Regulatory Framework:

8. Impacts to EPCOR's rates related to the Federal Carbon Pricing Program are not included in this Application (including related deferral and variance accounts). EPCOR intends to bring forward a separate combined application for Aylmer and Southern Bruce operations to update its rates effective April 1, 2023 for the 2023 Federal Carbon Pricing Program. This is consistent with the previous year's filing.
9. EPCOR has prepared an Excel based 2023 Annual Incentive Rate Adjustment Model to support the calculation of the rates and rate riders in the Application. A live working version of this model has been filed as supporting material. A hard copy of the model is provided in Appendix A.
10. EPCOR respectfully requests issuance of a decision and order in this proceeding by December 1, 2022, to ensure the implementation of the 2023 rates in advance of the effective date. In the event that the Board does not issue a decision and rate order by December 1, 2022, EPCOR requests that the Board issue an interim rate order declaring the current distribution rates as interim until the decided implementation date of the approved 2022 distribution rates.
11. In the event that the Board's implementation date for 2023 distribution rates is later than the effective date, EPCOR requests permission to recover the incremental revenue from the effective date of January 1, 2023 to the implementation date through the implementation of fixed-term volumetric rate riders for each Rate Class.
12. EPCOR requests that, pursuant to Section 34.01 of the OEB's Rules of Practice and Procedure, this proceeding be conducted by way of written hearing.
13. The persons affected by this Application are the ratepayers of EPCOR's Aylmer service territory.
14. EPCOR confirms that the Application and related documents will be published on its website (EPCOR.com).

EPCOR NATURAL GAS LIMITED PARTNERSHIP
by its general partner **EPCOR ONTARIO UTILITIES INC.**

Tim Hesselink
Senior Manager, Regulatory Affairs

ANNUAL INCENTIVE RATE ADJUSTMENT SUMMARY

In its most recent cost of service rate application (EB-2018-0336) EPCOR proposed that its rates for 2021 through 2024 for its natural gas distribution service for the Aylmer area be adjusted annually by applying the elements of its proposed IR Plan. In the Decision, the Board approved the elements of EPCOR's IR Plan as: (a) an annual Price Cap Adjustment; (b) specified Y-factors recovered through associated deferral and variance accounts; (c) use of Z-factor adjustments; (d) adjustment for future tax changes; (e) use of an incremental capital module; (f) an earnings dead band off-ramp; and, (g) an asymmetrical Earnings Sharing Mechanism. These elements and their impact on this 2023 IR Adjustment are described in the sections below.

Price Cap Adjustment

The annual price cap adjustment ("PCA") is defined as the annual percentage change in the inflation factor less a productivity factor and a stretch factor.

Inflation Factor

EPCOR's approved IR Plan for setting rates for 2021 through 2024 utilizes the 2-factor Input Price Index ("IPI") methodology adopted by the Board for electricity distributors per EB-2010-0379 as the inflation factor for the calculation of the annual PCA. The Board uses the year-over-year change in the GDP-IPI (FDD), and the AWE ("Average Weekly Earnings") All Employees-Ontario, to calculate the 2- factor IPI. The percentage change is calculated as the weighted sum of 70% of the annual percentage change in the GDP-IPI (FDD) for the prior year relative to the index value for two years prior and 30% of the annual percentage change in the AWE for the prior year relative to the data for years prior.

As of the filing date of this Application, the Board has not yet confirmed the IPI for use for 2023 rates. For the purposes of this Application, EPCOR has used an inflation factor of 3.3%, which is the IPI issued by the Board for the year 2022 (EB-2021-0212)². EPCOR proposes to update the PCA and rates as part of this proceeding as a result of the outcome of the above noted hearing if necessary.

² EB-2021-0212, Decision and Order, November 18, 2021, page 1

Productivity Factor

The productivity factor approved as part of EPCOR's IR Plan for setting rates for 2021 through 2024 is zero.

Stretch Factor

As per the EB-2018-0336 Settlement Proposal³, EPCOR will employ a stretch factor of 0.4% for the calculation of the PCA for its Aylmer business unit over the IR Term.

Implementation of the PCA

Based on the above factors, the PCA for 2022 is as follows:

- Inflation = 3.3%
- Productivity = 0.0%
- Stretch = (0.4%)
- Total PCA for 2021 Rates = 2.9%

The PCA of 2.9% has been used in the 2023 IRM Adjustment Model to determine the proposed distribution rates.

In accordance with the Decision, for Rate Class 1, EPCOR is to increase the fixed monthly charge annually by \$1.00 and to correspondingly adjust the volumetric charges to achieve a total projected revenue for the IR year for Rate Class 1 equivalent to the prior year Board approved revenue for Rate Class 1 increased by the PCA.⁴

Rates Classes 2-5 Fixed and Volumetric Charge Ratios

During the preparation of this application and upon review of the information in the settlement proposal (referencing Application section 7 above), EPCOR notes that the inflationary increases for rate classes 2-5 did not follow the terms of the settlement agreement in the previous two IRM filings (EB-2020-0215 and EB-2021-0233). Fixed rates did not increase with inflation and instead

³ EB-2018-0336, Decision and Interim Order, July 4, 2019, page 43

⁴ EB-2018-0336, Decision and Interim Order, July 4, 2019, page 39
EB-2018-0336 Application and Evidence, Exhibit 10, page 2 of 8

only the volumetric charges were adjusted to achieve a total projected revenue for the IR year for Rate Classes equivalent to the prior year Board approved revenue increased by the PCA. While this has not led to any material impacts for bill calculation, EPCOR is proposing to true up the rates to align with the approved settlement proposal.

EPCOR is proposing to use the rates on table 4b as they align with the settlement agreement. This will result in an average bill calculation that is 0.04% (\$39.96) less than using the currently approved methodology without adjustment.

Specified Y-Factors

EPCOR's approved IR Plan for setting rates for 2021 through 2024 includes the following Y-factors which are tracked in associated deferral and variance accounts:

- Costs related to unaccounted for gas; and,
- Costs associated with participating in generic and other Board hearings that impact the utility, including Enbridge Gas (and formerly Union Gas) proceedings.

EPCOR is applying for disposition of costs related participation and other Board hearing via the Regulatory Expense Deferral Account (REDA) which is covered further in this application.

Z-Factor Adjustments

EPCOR's approved IR Plan for setting rates for 2021 through 2024 includes a Z-factor adjustment to address material cost increases or decreases associated with unforeseen events that are outside the control of management. The approved materiality threshold for the Z-factor adjustments is \$50,000 per individual event.

EPCOR's approved process for Z-factor claims under its IR Plan is as follows:

- EPCOR will notify the Board of any Z-factor events within six months of the occurrence of the event. At such time, EPCOR will request the establishment of a deferral account to record the costs related to the Z-factor event;
- EPCOR will record amounts sought to be claimed as a Z-factor in the deferral account established for the event;
- Monthly carrying charges will be recorded on the deferral account balance (calculated using simple interest applied to the monthly opening balances in the account and recorded in a separate sub-account of the deferral account). The rate of interest will be the Board-prescribed rate for deferral and variance accounts for the respective quarterly period as published on the Board's website; and,
- As part of a subsequent IR Adjustment application, EPCOR will apply to the Board for recovery of amounts recorded in the Z-factor deferral account. The application will outline the manner proposed to allocate the Z-factor amount to the various rate classes, the proposed disposition period, and the rationale for the selected approach. The application will also provide details on the calculated event cost and include evidence that the costs incurred meets the Board's four eligibility criteria of causation, materiality, prudence and management control.

As of the date of this Application, no events have occurred for which EPCOR intends to file a Z-factor claim.

Tax Changes

EPCOR's approved IR Plan for setting rates for 2021 through 2024 includes an adjustment for future tax changes. Legislated tax changes that occur over the IR Term as compared to the tax rates known at the time of EPCOR most recent cost of service application (EB-2018-0336) and embedded in the base rates are to be shared 50/50 between customers and EPCOR. Amounts to be recovered from or refunded to customers shall be done so through the use of a fixed monthly rate rider (calculated annually as applicable) implemented for a 12-month period.

No change has been made to the income tax rates embedded in the rates approved in EB-2018-0336 and therefore no tax changes are being requested in this Application.

Incremental Capital Module

EPCOR's approved IR Plan for setting rates for 2021 through 2024 includes an Incremental Capital Module ("ICM") to address the treatment of capital investment needs that arise during the IR Term. EPCOR shall apply for rate adjustments through an ICM for qualifying incremental capital investment beyond what is normally funded through approved rates consistent with the Board-established policies on ICM for electricity distributors.

Qualifying capital investments may be discretionary or non-discretionary and are discrete projects that satisfy the eligibility criteria of materiality, need and prudence as defined by the Board in its filing requirements. In conjunction with the criteria, EPCOR must pass the Means Test established by the Board to be eligible for incremental funding and the ICM will not be available if EPCOR's regulated return exceeds 300 basis points above the deemed return on equity embedded in the rates.

The materiality criterion represents a level of capital expenditures that can be funded through EPCOR's current approved rates. EPCOR is therefore eligible to identify projects for ICM if its proposed capital budget for the year exceeds the Board-defined materiality threshold value. The amount eligible for incremental funding will be calculated by subtracting the materiality threshold value in dollars from the proposed capital budget for the year.

EPCOR is to request approval of a rate adjustment for forecasted qualifying incremental capital projects as part of its annual IR Adjustment application, following the ICM filing requirements as defined by the Board in Chapter 3: Incentive Rate Setting Applications⁵ and as outlined in the Board's ACM Report⁶.

EPCOR is not requesting approval of an ICM related rate adjustment in this Application.

Earnings Dead Band Off-Ramp

EPCOR's approved IR Plan for setting rates for 2021 through 2024 includes the earnings dead band off-ramp mechanism consistent with the off-ramp outlined in the Board's Chapter 3: Incentive Rate Setting Applications for electricity distributors.

Under this mechanism, a regulatory review may be triggered if a distributor's earnings are outside of a dead band of +/- 300 basis points from the Board-approved return on equity. The Board will monitor the results filed by EPCOR as part of the reporting and record-keeping requirements and will determine if a regulatory review is warranted. EPCOR is to refrain from seeking an adjustment to its base rates through IR Plan if cumulative earnings are in excess of the dead band during the IR Term unless it has reason to believe that such an adjustment can be substantiated in consideration of the excess earnings.

EPCOR's 2021 regulated return on equity (ROE) was 7.0%, which within the +/- 300 basis points dead band of the approved deemed return on equity of 8.98%.

Earnings Sharing Mechanism

EPCOR's approved IR Plan for setting rates for 2021 through 2024 includes an asymmetrical Earnings Sharing Mechanism ("ESM") based on an assessment of earnings over the cost of service term (2020-2024). In the event that the utility's cumulative ROE at the end of the period 2020 through 2024 exceeds the Board-approved ROE by more than 150 basis points, EPCOR is required to share with ratepayers 50% of the earnings which are in excess of the 150 basis points threshold. For additional clarity, the cumulative ROE will be calculated as the sum of actual regulated net income over the term, taking into account any necessary adjustments, divided by the sum of the actual regulated equity balances for the same term (i.e. considers rate base growth).

The Decision included the establishment of the Earnings Share Mechanism Deferral Account ("ESMDA") is to record the annual earnings sharing mechanism (ESM) impact over the term. An entry will be made to the ESMDA annually to record the amount that is equal to the cumulative earnings to be shared, as if the balance were to be settled on the date it was recorded. The

balance in this account will be reflective of the ratepayers' share of utility earnings (i.e. recorded at 50% of earnings eligible to be shared). As the ESM is asymmetrical the ESMDA balance will be either a credit balance or zero.

As of December 31, 2021, EPCOR's cumulative ROE 272 basis points below the Board-approved ROE, and as a result there is currently no balance of earnings to share with ratepayers.

DISPOSAL OF DEFERRAL AND VARIANCE ACCOUNTS

In the 2022 IRM proceeding (EB-2021-0215), EPCOR was approved to recover the 2020 deferral and variance account balances for the twelve month period of January 1 2022 - December 31, 2022 of \$352,527 which included:

- REDA - \$38,804
- PGTVA - \$91,376
- LDMDA⁷ - \$154,518
- SICDA⁸ - \$67,829

EPCOR is requesting to dispose of the December 31, 2021 audited balances for following four approved deferral and variance accounts as part of this Application:

- Regulatory Expense Deferral Account ("REDA");
- Purchased Gas Transportation Variance Account ("PGTVA");

EPCOR is seeking disposition of the December 31, 2021 balances for its Federal Carbon Pricing Program related deferral and variance accounts in a separate application and therefore the disposition of these balances is not being requested in this Application.

The auditor's report on the December 31, 2021 balances for each of the five accounts above has been included as part of this Application in Appendix D.

A summary of the account balances can be seen below in Table 7:

Table 7 - Deferral & Variance Account Amounts:

PGTVA	\$125,249	\$227	\$1,876	\$126,190
Total	\$127,360	\$232	\$726	\$126,190

⁷ Loss of Disposal of Meters Deferral Account

⁸ 2016/2017 System Integrity Capital Deferral Account

Q1 2022 - Q3 2022 carrying charges have been calculated using the OEB's prescribed rates.
Q4 2022 have been forecasted using the Q3 2022 rate as a proxy.

The Regulatory Expense Deferral Account ("REDA")

The purpose of the REDA is to record costs associated with participating in generic hearings and in Enbridge Gas (and formerly Union Gas) proceedings, including if applicable a main rates case for Enbridge Gas. The REDA was established for use by the utility prior to EPCOR's ownership of the utility and the continuation of the account for use through to the end of 2024 was approved by the Board in the Decision.

EPCOR is proposing in this Application to dispose of the REDA balances as of December 31, 2021 and all associated carrying charges recorded up to the date of implementation of the proposed rate rider. The REDA balances as of December 31, 2021 relate to the following proceedings:

Case number	Description
EB-2015-0245	Demand Side Management Evaluation Process
EB-2019-0255	Potential Project to Expand Access to Natural Gas

The calculation of the projected total amount proposed for disposal is summarized in Table 8 below and further details of the specific items making up these balances are provided in the continuity schedule in Appendix D.

Table 8 - Projected Total REDA Amount for Disposal

REDA	Balance 31-Dec-21	Q1 2022 0.57%	Q2 2022 1.02%	Q3 2022 2.20%	Q4 2022 2.20%	Balance 31-Dec-22
Principal	\$2,111					\$2,111
Carrying Charges	<u>\$5</u>	<u>\$3</u>	<u>\$5</u>	<u>\$12</u>	<u>\$12</u>	<u>\$37</u>
Total	\$2,117	\$3	\$5	\$12	\$12	\$2,148

EPCOR proposes to recover the costs related to the above proceeding from customers in rates 1-5. The REDA balances are proposed to be recovered through the implementation of a twelve-month fixed-rate rate rider commencing on January 1, 2023. The calculation of the proposed rate rider is shown in Table 9 below.

Table 9 - Calculation of Proposed REDA Rate Rider

		A Unit	B Row Sum	C Rate 1	D Rate 2	E Rate 3	F Rate 4	G Rate 5

2	Allocation	%	100%	99.0%	0.5%	0.1%	0.4%	0.0%
3	Sum	\$	2,148	2,126	11	1	9	1
4	Rate Rider	¢/m3		0.02	0.02	0.02	0.02	0.02

The resulting bill impacts of the proposed REDA rate rider is reflected in Table 14b below.

Purchased Gas Transportation Variance Account ("PGTVA")

The purpose of the PGTVA is to record differences between the average forecasted transportation costs per m3 included in EPCOR's approved rates for recovery from customers via the PGTVA reference price in Rate Classes 1 through 5, and the actual transportation costs per m3 incurred by EPCOR under its M9 and Bundled T contracts with Enbridge Gas for the volumes required to serve the customers in these rate classes. As the transportation costs are a flow-through to customers, this deferral account is to ensure that ratepayers pay the actual cost of transportation and that the utility does not incur a profit or loss on these costs. The PGTVA was established for use by the utility prior to EPCOR's ownership of the utility and the continuation of the account for use through to the end of 2024 was approved in the Decision.

EPCOR is proposing in this Application to dispose of the PGTVA balances as of December 31, 2021 and all associated carrying charges recorded up to the date of implementation of the proposed rate rider. The calculation of the projected total amount proposed for disposal is summarized in Table 10 below and further details of these balances are provided in the continuity schedule in Appendix D.

Table 10 - Projected Total PGTV A Amount for Disposal

PGTVA	Balance 31-Dec-21	Q1 2022 0.57%	Q2 2022 1.02%	Q3 2022 2.20%	Q4 2022 2.20%	Balance 31-Dec-22
Principal	\$125,249					\$125,249
Carrying Charges	<u>\$227</u>	<u>\$178</u>	<u>\$319</u>	<u>\$689</u>	<u>\$689</u>	<u>\$2,103</u>
Total	\$125,476	\$178	\$319	\$689	\$689	\$127,352

The total projected disposition amount is a debit balance of \$127,352 which EPCOR is proposing to recover from the customers in Rate Classes 1-5 through the implementation of a twelve-month volumetric rate rider commencing on January 1, 2023. The rate rider will be calculated by taking the total disposition amount over the total volumetric deliveries for Rate Classes 1-5 for the period January 1, 2021 through December 31, 2021. The calculation of the proposed rate rider is shown in Table 11 below.

Table 11 - Calculation of Proposed PGTV A Rate Rider

The resulting bill impacts of the proposed PGTV A rate rider is reflected in Table 14b below.

BILL IMPACTS

The following table provides a summary of bill impacts of the proposed changes to rates for 2023 and the proposed rate riders for each rate class assuming the average consumption level of the rate class based on the 2021 customer connections and volumes. The bill impact provided assumes a full 12 months of distribution service and consumption. Further details on the bill impacts summarized below are provided in the 2023 Incentive Rate Adjustment Model.

Natural Gas System**

Proposed Draft Rate Schedules

EB-2022-0183

Effective: January 1, 2023

EPCOR Natural Gas Limited Partnership

RATE 1 - General Service Rate

Rate Availability

The entire service area of the Company.

Eligibility

A customer that requires delivery of natural gas to any residential building served through one meter and containing no more than three dwelling units.

Rate

a)	Monthly Fixed Charge ⁽¹⁾	\$20.50
	Rate Rider for REDA Recovery – effective for 12 months ending December 31, 2023	\$0.02
b)	Delivery Charge	
	First 1,000 m ³ per month	13.8914 cents per m ³
	All over 1,000 m ³ per month	11.1644 cents per m ³
	Rate Rider for PGTVA recovery – effective for 12 months ending December 31, 2023	0.4355 cents per m ³
c)	Carbon Charges ⁽²⁾	
	Federal Carbon Charge (if applicable)	9.7900 cents per m ³
	Facility Carbon Charge	0.0034 cents per m ³
	Rate Rider for FCCVA recovery (if applicable) – effective for 3 months ending March 31, 2023	\$0.03 per month
	Rate Rider for GGEADA recovery – effective for 3 months ending March 31, 2023	\$0.03 per month
d)		
e)	Gas Supply Charge and System Gas Refund Rate Rider (if applicable)	Schedule A

⁽¹⁾ Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

⁽²⁾ The Federal Carbon Charge is only “applicable” to 20% of the natural gas volumes used by eligible greenhouses, reducing their effective Federal Carbon Charge rate.

Meter Readings

Gas consumption by each customer under this rate schedule shall be determined by monthly meter reading, provided that in circumstances beyond the control of the company such as strikes or non-access to a meter, the company may estimate the consumption each month as of the scheduled date of the regular monthly meter reading and render a monthly bill to the customer thereof.

Delayed Payment Penalty

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by EPCOR, customers who are delivering gas to EPCOR under direct purchase arrangements must obligate to deliver said gas at a point acceptable to EPCOR, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

Effective: January 1, 2023

Implementation: All bills rendered on or after January 1, 2023

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:

- a) The volume of gas for which the customer is willing to contract;
- b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
- c) Interruptible or curtailment provisions; and
- d) Competition.

3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.2444 cents per m³ for firm gas and 5.5990 cents per m³ for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply

on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m³ and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

⁽¹⁾ Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

⁽²⁾ The Federal Carbon Charge is only “applicable” to 20% of the natural gas volumes used by eligible greenhouses, reducing their effective Federal Carbon Charge rate.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

Unless otherwise authorized by EPCOR, customers who are delivering gas to EPCOR under direct purchase arrangements must obligate to deliver said gas at a point acceptable to EPCOR, and must acquire and maintain firm transportation on all pipeline systems upstream of Ontario.

Delayed Payment Penalty

When payment is not made in full by the due date noted on the bill, which date shall not be less than 16 calendar days after the date of mailing, hand delivery or electronic transmission of the bill, the balance owing will be increased by 1.5%. Any balance remaining unpaid in subsequent months will be increased by a further 1.5% per month. The minimum delayed payment penalty shall be one dollar (\$1.00).

Effective: January 1, 2023

Implementation: All bills rendered on or after January 1, 2023

Appendix C - Proposed Customer Notice

IMPORTANT INFORMATION ABOUT YOUR NATURAL GAS BILL

The Ontario Energy Board (OEB) has approved changes to the delivery charges that EPCOR Natural Gas Limited (EPCOR) charges its customers commencing January 1, 2023.

How will this price change impact you? For a typical residential customer who consumes about 1,900 cubic meters of gas annually, the rate change will decrease the bill by \$0.63 per month. Commercial, industrial and seasonal rate customers will also be impacted by this change.

On all bills rendered by EPCOR on or after January 1, 2023, there will be rate changes for the "Fixed Monthly Charge" and "Delivery To You Charges". In addition, some temporary rate adjustments will be added to your bill for the period of January 1, 2023 to December 31, 2023 to recover and/or refund specific amounts related to the clearing of balances in certain deferral and variance accounts as approved by the OEB.

These changes do not impact the Gas Supply Charges on your bill which will continue to be adjusted quarterly in accordance with the OEB approved process. Please refer to epcor.com or visit OEB.ca for the approved rates and rate riders to see how you may be affected.

If you have any questions about the changes in rates or any other item that appears on your bill, please feel free to call our office at 519-773-5321.

We would like to thank you for choosing to make natural gas your energy of choice.

Agreed-Upon Procedures Report

To the Management of EPCOR Natural Gas Limited Partnership:

Purpose of this Agreed-Upon Procedures Report

Our report is solely for the purpose of assisting EPCOR Natural Gas Limited Partnership (the "Entity") in assessing the deferral accounts of the Aylmer operations in the REDA and PGTVA Rates 1-5 Schedules to comply with the requirements of the Ontario Energy Board (OEB) for the period from January 1, 2021 to December 31, 2021 and may not be suitable for another purpose.

Management's Responsibilities

Management has acknowledged that the agreed-upon procedures are appropriate for the purpose of the engagement. Management is responsible for the subject matter on which the agreed-upon procedures are performed.

Practitioner's Responsibilities

We have conducted the agreed-upon procedures engagement in accordance with the Canadian Standard on Related Services (CSRS) 4400, Agreed-Upon Procedures Engagements. An agreed-upon procedures engagement involves our performing the procedures that have been agreed with the Entity, and reporting the findings, which are the factual results of the agreed-upon procedures performed. We make no representation regarding the appropriateness of the agreed-upon procedures.

This agreed-upon procedures engagement is not an assurance engagement. Accordingly, we do not express an opinion or an assurance conclusion.

Had we performed additional procedures, other matters might have come to our attention that would have been reported.

Professional Ethics

We have complied with the relevant ethical and independence requirements set out in rules of professional conduct / code of ethics in Canada.

Procedures and Findings

We have performed the procedures described in Appendix A, on the deferral accounts as at December 31, 2021, which were agreed upon with the Entity. As a result of performing these procedures, we found no exceptions.

APPENDIX A

1. We obtained the schedule of deferral activity for REDA and PGTVA 1-5 from January 1, 2021 to December 31, 2021 and recalculated the schedule to ensure their mathematical accuracy.
2. For the REDA, we obtained an invoice for sampled months of activity to ensure that the amount of cost claimed is correct. For each selection, we reviewed the OEB reference number to ensure that the cost claimed matched the purpose of the deferral account.
3. For the PGTVA 1-5, we verified the total transportation costs for selected months and the volumes transported with the corresponding invoices. We also verified the reference price to the specific OEB filing for the entire period.

EXHIBIT D

EPCOR has applied to the Ontario Energy Board to decrease its natural gas rates, effective January 1, 2023. If the application is approved as filed, the amount EPCOR charges a typical residential customer and a typical commercial customer in its Aylmer service area would decrease by the following yearly amounts:

- General Service Residential: -\$7.56 per year
- General Service Commercial: -\$7.74 per year

[Read our customer notice](#)

[READ NOW](#)

The requested rate increase is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. The rate increase also includes EPCOR's request to dispose of the balances in certain deferral and variance accounts.

Other customers may also be affected. It is important to review the application carefully to determine whether you may be affected by these changes.

The Ontario Energy Board will hold a public hearing

The Ontario Energy Board (OEB) will hold a public hearing to consider the application filed by EPCOR. During the hearing, which could be an oral or written hearing, the OEB will question EPCOR on the request for a rate change. The OEB will also hear questions and arguments from individuals that have registered to participate (called intervenors) in the hearing. At the end of this hearing, the OEB will decide what, if any, rate change will be allowed.

The OEB is an independent and impartial public agency. It makes decisions that serve the public interest. Its goal is to promote a financially viable and efficient energy sector that provides customers with reliable energy services at a reasonable cost.

Be informed and have your say

You have the right to information regarding this application and to be involved in the process.

- You can review EPCOR's application.
- You can file a letter with your comments, which will be considered during the hearing.
- You can become an intervenor. As an intervenor you can ask questions about EPCOR's application and make arguments on whether the OEB should approve the request. **Apply to be an intervenor by August 3, 2022**, or the hearing will go ahead without you and you will not receive any further notice of the proceeding.
- At the end of the process, review the OEB's decision and its reasons on its website.

Learn more

Our file number for this case is EB-2022-0183. To learn more about this hearing, find instructions on how to file a letter with your comments or become an intervenor, or to access any document related to this case, please enter the file number EB-2022-0183 on the OEB website. You can also phone our Consumer Relations Centre at 1 (877) 632-2727 with any questions.

Oral vs. Written hearings

There are two types of OEB hearings: oral and written. EPCOR has applied for a written hearing. If you think an oral hearing is needed, you can write to the OEB to explain why by August 3, 2022.
