Undertaking Response to CAEPLA-DCLC

With reference to CAEPLA-DCLC IR 2a and alignment sheets included in the response, to identify advancements and to explain what is meant by advancements in the response.

Response:

At the time that CAEPLA-DCLC interrogatories (June 30, 2022) were submitted to Enbridge Gas, the alignment drawings were still in draft form and associated property surveys had not yet been completed. Advancements made to these documents since that time include: aerial satellite view, addition of existing pipeline infrastructure, refined easement and Temporary Land Use data.

As of the date of this filing, property surveys have been completed and alignment drawings updated as discussed in the response at Exhibit JT1.17.
