Memorandum

To: OEB
From: John Dikeos
CC: Michael Parkes

I was appointed by the OEB as a non-utility member of its Gas IRP Working Group on December 3rd, 2021 and have been an active participant in the Working Group since. Based on Section 3 of the OEB's "Practice Direction on Cost Awards", I believe I am eligible for cost awards for my participation in the Working Group. Specifically, Section 3.03(b) states that a party that "primarily represents an interest or policy perspective relevant to the Board's mandate and to the proceeding for which cost award eligibility is sought" is eligible for cost awards. I believe that I meet that standard.

My appointment to the Gas IRP Working Group was made due to my experience with non-pipe (IRP) solutions in the Ontario context and the research that I've completed on this topic looking at other jurisdictions across North America. I have provided both Enbridge and FortisBC with research, analysis, and regulatory support on IRP solutions. This has included serving as the Deputy PM and DSM impact analysis lead for ICF's 2018 Natural Gas IRP Study for Enbridge, which was focused on estimating the peak demand impacts of gas EE measures and the feasibility of using gas DSM to delay or defer infrastructure investments. I also co-authored ICF's 2020 Jurisdictional Review Report for Enbridge, which was submitted as evidence as part of the OEB IRP proceeding (EB-2020-0091) and served as an expert witness for Enbridge.

Please contact me or the ICF Administrative Manager, Karrain Smith (copied here), if we can provide any additional information regarding my eligibility for cost awards and/or the specifics of my cost claim.
