**TO: All Participants in EB-2022-0072
All Participants in the Consultation on the Review of Enbridge Gas Inc.'s
Five-Year Gas Supply Plan (EB-2019-0137)**

**RE: Consultation to Review Annual Update to Five-Year Natural Gas Supply
Plan of Enbridge Gas Inc.**

Today the Ontario Energy Board (OEB) issued the *OEB Staff Report to the OEB: Review of 2022 Annual Update to Enbridge Gas Inc. Natural Gas Supply Plan* (OEB Staff Report). The OEB Staff Report sets out OEB staff's assessment of Enbridge Gas Inc.'s (Enbridge Gas) annual update to the five-year natural gas supply plan.

The OEB thanks the participants in this consultation. All material related to this consultation is available on the [OEB's website](#).

Some stakeholders have suggested that the current timing of the filing of the next five-year gas supply plan (early 2024) will not allow Enbridge Gas to incorporate the findings from Enbridge Gas's 2024 rebasing application into the next five-year gas supply plan. Enbridge Gas proposed providing more details regarding the timing for the next five-year gas supply plan in its 2023 annual update. The OEB accepts the proposed approach of Enbridge Gas and believes that at the next annual update, all parties will have more information about the timing and process of the rebasing application.

Following consideration of the OEB Staff Report, the OEB has determined that there are no issues that require a hearing at this time. Therefore, the issuance of the OEB Staff Report marks the conclusion of the consultation.

Cost Awards

Cost-eligible activities related to this consultation are now complete. A Notice of Hearing for Cost Awards will be issued separately.

Yours truly,

Nancy Marconi
