

**Hydro One Networks Inc.**  
**EB-2022-0140**  
**Leave to Construct Application:**  
**Transmission Line between Chatham SS and Lakeshore TS**  
  
**Supplementary Interrogatories of Environmental Defence**

**Interrogatory 1-ED-1**

Questions:

- (a) With respect to Hydro One's selection of the proposed tower and conductor technologies, please file the IESO's latest draft of its transmission losses guideline.
- (b) Please calculate the cost-effectiveness of using a larger conductor that would account for the value of both the energy savings and the capacity savings.
