Good afternoon,

Toronto Hydro-Electric System Limited ("Toronto Hydro") has applied to the Ontario Energy Board to set its electricity distribution rates effective January 1, 2023, in accordance with the OEB-approved custom incentive rate-setting framework for the period 2020-2024.

Toronto Hydro has also applied for approval of a new variance account to track an expected net decrease in depreciation expense arising from changes to the financial useful lives of its capital assets. Toronto Hydro proposes that this account be reviewed and disposed in the utility's next rebasing application.

Please find attached for reference copies of the English and French versions of Notice of Hearing. The application and evidence can be accessed through this [link](#).
