Dear Margaret, Liz,

Hope you had a great weekend.

In addition to the staff questions that I sent on September 16th, please add the following question to your response:

Staff-10

Preamble: The 2021 CDM Guidelines (section 8) require distributors filing an application for 2023 rates to seek disposition of all outstanding LRAMVA balances related to previously established thresholds, including approval of LRAM-eligible amounts in future years (arising from persisting savings) until a distributor's next rebasing application, unless a distributor does not have complete information on eligible savings.

Question:

- a. Please confirm that KWHI will not be seeking to dispose of any balance in the LRAMVA due to LRAM-eligible CDM activities funded by the IESO through the Conservation First Framework or Interim Framework in a future year's application.
 - a. If not confirmed, please explain why a request for disposition was not submitted as part of this application.
 - b. If confirmed, please also confirm that KWHI has verified that, relative to the LRAMVA threshold (if any) established in KWHI's most recent rebasing application, the balance in the LRAMVA, and any prospective LRAM-eligible amounts until the next rebasing, are either zero or a debit (i.e., not a credit that would need to be refunded to customers).
-

If you have any questions, please let me know.

Thank you.

Narisa

Subject: Staff Questions - KWHI - 2023 IRM application EB-2022-0045

Dear Margaret and Liz,

Hope all is well.

Please find attached the first round of staff questions and the updated Rate Generator Model. A few updates have been made to the Rate Generator Model (please see staff questions). Could you please provide a response by the end of next week (September 23, 2022)?

With regards to the inflation update, we are expecting to receive the updated number around mid-November.

If you have any questions, please let me know.

Best regards,

Narisa
