Attention: Ms. Nancy Marconi, Registrar

Dear Ms. Marconi:

Re: EB-2022-0041 – Hydro One Remote Communities Inc. 2023 Cost of Service Application – WPLP's Scope of Intervention

On October 19, 2022, the Board issued Procedural Order No. 1 in the above-noted proceeding approving Wataynikaneyap Power LP, by its general partner Wataynikaneyap Power GP Inc. (together, "WPLP") as an intervenor in the proceeding. WPLP is also in receipt of Hydro One Remote Communities Inc.'s ("HORCI") letter dated October 19, 2022 in respect of WPLP's scope of intervention in the proceeding.

In its letter, HORCI requested to the Board that WPLP's scope of intervention pertain only to the issues that specifically impact WPLP. HORCI further submitted that "[t]he capital and operating costs arising from the integration [of HORCI's distribution system into WPLP's Transmission System], and any related issues from the planned integration, should be limited to costs, work or investments impacting WPLP specifically".

WPLP does not object in principle to HORCI's request to the Board in respect of WPLP's scope of intervention, provided that, for clarity, such scope would include any direct or indirect impacts on WPLP, including the impact of HORCI's operations, and the manner in which it carries out such operations, on WPLP's ability to deliver the services that it has committed to providing to each of the connecting First Nation Communities and the manner in which WPLP can provide such services. In our view, the foregoing is consistent with how HORCI has construed the scope of potential impacts in its intervention in WPLP's rates application (EB-2022-0149).

An electronic copy of this letter has been submitted using the Board's Regulatory Electronic Submission System.

If you have any questions, please do not hesitate to contact me at the number shown above.
