Dear Mr. Boyle:

**Re: Kingston Hydro Corporation (Kingston Hydro)
2023 Cost of Service Rate Application
OEB File Number: EB-2022-0044**

The Ontario Energy Board received a request on October 24, 2022, from Kingston Hydro for an extension to the date for filing a settlement proposal from October 24, 2022, to October 28, 2022.

Kingston Hydro advised that the parties continue to work towards drafting a final settlement proposal but will not be able to file by the deadline date. Kingston Hydro requires additional time to update the models included in the potential settlement proposal as a result of updated inflation factors and cost of capital parameters for 2023 issued by the OEB on October 20, 2022.

The OEB grants the extension. Accordingly, the date set out in Procedural Order No. 1 for OEB staff to file any submission on the settlement proposal will be amended from October 31, 2022, to November 4, 2022.

Since the amended date affects the timing for the OEB to adequately review the settlement proposal and for any OEB staff submission on the settlement proposal, the tentative date of November 11, 2022 for Kingston Hydro to present the settlement proposal to the OEB is therefore cancelled. The OEB will reschedule a date for the settlement proposal presentation, if necessary.

Yours truly,

Nancy Marconi
Registrar
