**Subject:** Re: Cost Claim Clarification

Thanks John for double checking. It looks like it was an admin error on my side when I compiled the timesheets for filing. Please remove the 6.0 hours for John DeVenz as noted by John. If you require anything additional, please let me know.

Thanks,

Mike

Good morning,

It was not my intention to claim hours for meeting #21 in June, 22. I believe this was submitted inadvertently.

I have cc'd Michael Brophy who submitted this claim to add any additional comments.

Thanks

John

Hello John,

OEB staff is in the midst of reviewing cost claims for the FEI consultation for work undertaken from February – September 2022.

In the attached Pollution Problem claim, you have submitted a 6-hour claim for FEIWG meeting #21 (June 29, 2022), but the hours listed in the claim correspond with meeting #4 (August 24, 2021). Perhaps you intended to submit a claim for meeting #21 but listed meeting #4 hours in error?

Noting that a claim was submitted on your behalf for meeting #4 in the previous decision on FEI cost awards, **can you please confirm whether it was your intention to claim hours for meeting 21?** If yes, please also list the hours (including dates) you undertook to report on / attend meeting #21.

We are planning to issue a decision on costs awards as soon as possible, so your prompt response is greatly appreciated.

Thank you,

Andrew Brinn
