All,

The TRF Group has now had the opportunity to review Hydro One’s responses with our experts, and we are satisfied with the answers submitted.

With respect to our motion, we are willing to let go of the portions dealing with the request for further evidence from Hydro One. However, for all the reasons set out in our motion, and in light of the new evidence, we maintain the portions that deal with the form of hearing. To clarify, in light of the existing evidence, and the new evidence, we require the opportunity to cross-examine the witnesses in person.

Best regards,

**Lara Merjane** (she/her)
