Enbridge Gas Inc. has applied to raise its natural gas rates effective April 1, 2023, to recover costs associated with the *Greenhouse Gas Pollution Pricing Act* and the *Ontario Emissions Performance Standards*, and to recover certain related account balances and other changes.

Learn more. Have your say.

Enbridge Gas Inc. has applied to the Ontario Energy Board for approval to increase its rates effective April 1, 2023, to recover the costs associated with meeting its obligations under the *Greenhouse Gas Pollution Pricing Act* and the regulations under the *Ontario Emissions Performance Standards*. Enbridge Gas Inc. has also applied to recover from customers the balances in the related deferral and variance accounts and to establish a common Facility Carbon Charge for all customers, effective January 1, 2024.

The federal government's *Greenhouse Gas Pollution Pricing Act* establishes a carbon pricing program under which a natural gas utility in Ontario, such as Enbridge Gas Inc., is required to pay a carbon charge to the federal government for emissions from the natural gas that it delivers to its customers, and for excess emissions from the operation of Enbridge Gas Inc.'s natural gas distribution system. The federal carbon charge came into effect on April 1, 2019, increased on April 1, 2020, April 1, 2021, and on April 1, 2022, and will increase again on April 1, 2023.

The Ontario Emissions Performance Standards program is the Ontario government's carbon pricing system for industrial emitters that will come into effect on January 1, 2022, and replaces the federal government's Output-Based Pricing System in Ontario.

Enbridge Gas Inc. says that if its application is approved as filed, it will have the following bill impacts:

- A typical residential customer in the EGD rate zone (former customers of Enbridge Gas Distribution Inc.) will see a bill increase of \$63.59 beginning April 1, 2023. This is composed of a \$62.42 yearly bill increase arising from the 2023 carbon charges, plus a one-time charge of \$1.17, to recover the balances in the related deferral and variance accounts.
- A typical residential customer in the Union South rate zone (former customers of Union Gas Limited), will see a bill increase of \$57.66 beginning April 1, 2023. This is composed of a \$57.24 yearly bill increase from the 2023 carbon charges, plus a one-time charge of \$0.42, to recover the balances in the related deferral and variance accounts.
- A typical residential customer in the Union North rate zone (former customers of Union Gas Limited), will see a bill increase of \$57.77 beginning April 1, 2023. This is composed of a \$57.24 yearly bill increase from the 2023 carbon charges, plus a one-time charge of \$0.53, to recover the balances in the related deferral and variance accounts.

Other customers, including businesses, may be affected.

Enbridge Gas Inc. a déposé une requête en vue d'obtenir une augmentation de ses tarifs de gaz naturel à compter du 1^{er} avril 2023 afin de recouvrer les coûts associés à la Loi sur la tarification de la pollution causée par les gaz à effet de serre et aux normes de rendement des émissions de l'Ontario, et de recouvrer certains soldes de comptes connexes et d'autres changements.

Renseignez-vous. Donnez votre avis.

Enbridge Gas Inc. a déposé une requête auprès de la Commission de l'énergie de l'Ontario dans laquelle elle demande l'autorisation d'augmenter ses tarifs à compter du 1^{er} avril 2023 afin de recouvrer les coûts associés au respect de ses obligations en vertu de la *Loi sur la tarification de la pollution causée par les gaz à effet de serre* et des réglementations des *normes de rendement des émissions de l'Ontario*. Enbridge Gas Inc. a également déposé une requête afin de recouvrer auprès des clients les soldes des comptes de report et d'écart connexes et d'établir une taxe commune sur le carbone de l'installation pour tous les clients, à compter du 1^{er} janvier 2024.

La *Loi sur la tarification de la pollution causée par les gaz à effet de serre* (loi fédérale) établit un programme de tarification du carbone en vertu duquel une compagnie de gaz naturel en Ontario, comme Enbridge Gas Inc., est tenue de payer une taxe sur le carbone au gouvernement fédéral pour les émissions du gaz naturel qu'elle livre à ses clients et pour les émissions excédentaires provenant de l'exploitation du réseau de distribution de gaz naturel d'Enbridge Gas Inc. La taxe fédérale sur le carbone est entrée en vigueur le 1^{er} avril 2019, a augmenté le 1^{er} avril 2020, le 1^{er} avril 2021 et le 1^{er} avril 2022, et augmentera à nouveau le 1^{er} avril 2023.

Le programme de normes de rendement en matière d'émissions de l'Ontario est le système de tarification du carbone du gouvernement de l'Ontario pour les émetteurs industriels. Il entrera en vigueur le 1^{er} janvier 2022 et remplace le Système de tarification fondé sur le rendement du gouvernement fédéral en Ontario.

Enbridge Gas Inc. indique que si cette requête est approuvée telle quelle, elle aura les incidences suivantes sur la facture :

- Un client résidentiel type dans la zone de tarification d'EGD (par exemple un ancien client d'Enbridge Gas Distribution Inc.) verra sa facture augmenter de 63,59 \$ à compter du 1^{er} avril 2023. Cette augmentation se compose des éléments suivants : une augmentation annuelle de 62,42 \$ sur la facture découlant de la taxe sur le carbone 2023, et des frais non récurrents de 1,17 \$ visant à recouvrer les soldes des comptes de report et d'écart connexes.
- Un client résidentiel type dans la zone de tarification d'Union Sud (par exemple un ancien client d'Union Gas Limited) verra sa facture augmenter de 57,66 \$ à compter du 1^{er} avril 2023. Cette augmentation se compose des éléments suivants : une augmentation annuelle de 57,24 \$ sur la facture découlant de la taxe sur le carbone 2023, et des frais non récurrents de 0,42 \$ visant à recouvrer les soldes des comptes de report et d'écart connexes.
- Un client résidentiel type dans la zone de tarification d'Union Nord (par exemple un ancien client d'Union Gas Limited) verra sa facture augmenter de 57,77 \$ à compter du 1^{er} avril 2023. Cette augmentation se compose des éléments suivants : une augmentation annuelle de 57,24 \$ sur la facture découlant de la taxe sur le carbone 2023, et des frais non récurrents de 0,53 \$ visant à recouvrer les soldes des comptes de report et d'écart connexes.

D'autres clients, notamment les entreprises, pourraient être touchés.

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act*,
1998, S.O. 1998, c. 15, Sch. B;

AND IN THE MATTER OF an application by Enbridge
Gas Inc., for an order or orders for gas distribution rate
changes related to compliance obligations under the
Greenhouse Gas Pollution Pricing Act, S.C. 2018, c. 12,
s. 186.

APPLICATION

1. Enbridge Gas Inc. (Enbridge Gas), the Applicant, was formed by the amalgamation of Enbridge Gas Distribution Inc. and Union Gas Limited on January 1, 2019 pursuant to the *Ontario Business Corporations Act*, R.S.O. 1990, c. B. 16. Enbridge Gas carries on the business of distributing, transmitting and storing natural gas within Ontario.
2. On June 21, 2018, the *Budget Implementation Act, 2018, No. 1* received Royal Assent. Included in Part V is the *Greenhouse Gas Pollution Pricing Act*, S.C. 2018, c. 12, s. 186 (GGPPA). Under the GGPPA, a federal carbon pricing program (FCPP) applies in whole or in part to any province or territory that requested it or that did not have an equivalent carbon pricing system in place by January 1, 2019. On October 23, 2018, the federal government confirmed that the GGPPA would apply to Ontario.
3. Provinces or territories can submit their own carbon pricing systems to the federal government for approval, and if approved, are not subject to Part 1 and/or Part 2 of the GGPPA.
4. On September 21, 2020, the Province of Ontario announced that the federal government accepted Ontario's carbon pricing system for industrial emitters, known as the Ontario Emissions Performance Standards program (EPS), as an alternative to the federal Output-Based Pricing System (OBPS). On March 29, 2021, the federal government announced that effective January 1, 2022, the EPS will replace the OBPS

in Ontario. The GGPPA was amended on September 1, 2021, to remove Ontario from Part 2 of Schedule 1 of the GGPPA, enabling the EPS to take effect in Ontario as of January 1, 2022.

5. The FCPP is composed of two elements: (i) a charge on fossil fuels (the Federal Carbon Charge) imposed on distributors, importers and producers effective April 1, 2019, and increasing each year on April 1; and (ii) an EPS for prescribed industrial facilities effective January 1, 2022.
6. Enbridge Gas's operations as an integrated natural gas utility in Ontario fall under the purview of the GGPPA and EPS Regulation, which will result in the following costs being incurred:
 - a. Incremental administration and program costs;
 - b. Customer-related Federal Carbon Charge costs for volumes delivered by Enbridge Gas to its residential, commercial and industrial customers who are not covered under the EPS; and
 - c. Facility-related costs (Facility Carbon Charge) arising from Enbridge Gas's facilities and operation of its gas distribution system.
7. Enbridge Gas hereby applies to the OEB, pursuant to the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B (the Act), for:
 - a. an order or orders allowing it to charge customers a Federal Carbon Charge on a volumetric basis, in the amount of the Federal Carbon Charge required to be paid by Enbridge Gas pursuant to the GGPPA, effective April 1, 2023;
 - b. an order or orders approving or fixing just and reasonable rates for all Enbridge Gas rate zones (EGD, Union Northeast, Union Northwest and Union South),¹ effective April 1, 2023, to allow Enbridge Gas to recover

¹ Collectively, the Union Northeast, Union Northwest and Union South rate zones are referred to as the "Union rate zones".

other costs (including Facility Carbon Charge costs) incurred in compliance with the GGPPA and EPS Regulation;

- c. an order or orders approving the proposed rate change reflecting a common Facility Carbon Charge for all customers, effective January 1, 2024;² and
 - d. an order or orders approving the 2021 balances for all FCPP-related deferral and variance accounts, for all Enbridge Gas rate zones, as set out in Exhibit C and for an order to dispose of those balances as early as the April 1, 2023 QRAM.
8. Enbridge Gas further applies to the OEB for all necessary orders and directions concerning pre-hearing and hearing procedures for the determination of this application.
9. This application is supported by written evidence that has been filed with this application and may be amended from time to time as circumstances may require.
10. The persons affected by this application are the customers resident or located in the municipalities, police villages, Indigenous communities and Métis organizations served by Enbridge Gas, together with those to whom Enbridge Gas sells gas, or on whose behalf Enbridge Gas distributes, transmits or stores gas. It is impractical to set out in this application the names and addresses of such persons because they are too numerous.
11. Enbridge Gas requests that the OEB's review of this application proceed by way of written hearing in English.
12. Enbridge Gas requests that all documents relating to this application and its supporting evidence, including the responsive comments of any interested party, be served on Enbridge Gas and its counsel as follows:

² Refer to Exhibit D, Tab 1, Schedule 1 for more information on the proposal to implement a common Facility Carbon Charge for all customers, effective January 1, 2024.
