Dear Mr. Rickel:

**Re: NextBridge Infrastructure LP  
Quarterly Report on the East-West Tie Project  
Board File No.: EB-2017-0182**

This acknowledges receipt on October 21, 2022 of the quarterly report (Report) on the progress of the East-West Tie Project for the period from July 1, 2022 to September 30, 2022.

On June 6, 2022, the OEB issued a letter stating that NextBridge will file final construction costs of the East-West Tie Project, continue to file quarterly reports, in accordance with the requirements previously established by the OEB until all land restorations activities are complete, and file its final quarterly report after the completion of restoration activities. NextBridge's Report provides the East-West Tie Project construction costs and states that "a small amount of restoration remains to be completed... this quarterly report will be NextBridge's final quarterly report".

The OEB does not consider the Report as NextBridge's final quarterly report. The OEB requires NextBridge to continue filing quarterly reports until all land restoration activities are complete including a final quarterly report after the completion of all land restoration activities.

Please direct any questions relating to this matter to Michael Price, Senior Advisor, at [Michael.Price@oeb.ca](mailto:Michael.Price@oeb.ca)

Regards,

Brian Hewson  
Vice President, Consumer Protection & Industry Performance
