This application must absolutely be denied. As a retiree my Enbridge monthly equal installment bill increased as of September 1, 2022 by 58.5%. The request to now increase rates again and pass along carbon charges that as a company they are responsible for is reprehensible! The one-time charge to recover the balances in the related deferral and variance accounts is not the responsibility of your consumers. Since the amalgamation of Union Gas and Enbridge, my monthly installments have increased by in excess of 100%. There must be some regulatory responsibilities to protect the consumer from this gouging.

Respectfully submitted,  
Kathryn Hogan
