Hello,

I find the Annual Bill Impacts to Consumers to be ambiguous, and require more clarity to confirm which Residential Customer we are categorized into, as an increase of \$50 annually or more passed to the Customer is not acceptable. This cost should be burdened by the Supplier and not simply conveyed onto the Consumer. If rates increase here, then what will stop Consultants and Contractors working for Enbridge to inflate their rates to compensate staff requesting higher salaries to combat inflation. Enbridge needs to become more strategic and efficient on how they deliver their product to the market.
