Enbridge has already doubled my equal billing I can not pay anything more....I understand this was not to happen till this was approved but it has already happened I wrote several letters to federal and provincial and it goes back and forth each blaming each other In the mean time my equal billing went from 97.00 to 187..00 how did this happen can't afford it this is money that would pay another bill so I ask which bill every month is not going to be paid This needs to stop And how have they already raised rate when it still is not passed
