[REDACTED]

-- Comments --

The application to increase our gas rates is not ethical. The overall inflation of everyday needs and the health and well being of our families that are still to this day being impacted by Covid and now RSV heavily rely on our homes as a safe space. The fact that this company is not only asking to increase, but doing so in the middle of winter is absurd. We do not have options to shop around rates. We are stuck and we deserve to have a say and a choice. Please consider all the families that are struggling to make ends meet and understand that enough is enough. We work hard, pay our taxes and just want to provide the best future possible for our children. Thank you.
