Dear Ms. Goher:

**Re: OEB File No. EB-2022-0055  
Oakville Hydro Electricity Distribution Inc. 2023 Distribution Rate Adjustment Application**

Please find attached the 2023 IRM Rate Generator model, updated as per our discussion earlier today.

Oakville Hydro agrees that the “Incremental Grossed-up Tax Amount” should be zero for 2023 and has adjusted the combined effective tax rate in Tab 8, cell H36, to achieve this.

As a result, the 2023 Rate Generator model is calculating no tax-sharing amount for 2023. Oakville Hydro confirms it is not requesting approval to record any 2023 tax-sharing amount in Account 1595 for disposition at a later date.

Yours truly,
