I am a senior, which means I have a fixed income.
My home has many areas requiring 'draft proofing'.
Labour costs and material costs just keep rising so I am limited to what can be done.
My electric furnace finally died after 40 years so I saved up and had a gas furnace installed. I have not received a bill yet for the gas line hookup and hopefully I have not made a big mistake in switching to gas.
I find it amazing how some people manage to eke out a living on under \$30,000. per year and big company execs can't manage on \$300,000. per month.

PLEASE NO INCREASE FOR NATURAL GAS PRICES.
