Enbridge Gas Inc. refers to inflation as partial evidence for the rate increase proposal from 2025-2028. However, Enbridge Gas Inc. must disclose the top 25 salaries from 2018-2022 within its corporation and provide rationale as to why salary increases are not being transferred to all employees and why this money cannot be utilized to decrease costs to customers on the Ontario infrastructure. Failure to enter this into the review would lead to an incomplete understanding and justification of the financial burden that will be levied on the payer in the uncertain economic future of Canada; especially when users are offered no other cost effective heating source and needed retrofit of all existing homes in all Ontario communities.
