The decision to increase natural gas costs in this region, during this time of extreme financial uncertainty for so many is unethical.

Those shareholder's who benefit from these increases are the super-wealthy; people whose livelihoods, families, and businesses will never be affected by this decision.

The fact that a small handful of people who do not need to concern themselves with basic survival due to an increased gas bill are making choices for the many who do, is unconscionable.

Please reverse this decision to increase natural gas prices.
