Re: Bluewater Power Distribution Corporation  
AMPCO Intervention Request  
Board File No. EB-2022-0016

Dear Ms. Marconi:

I am writing pursuant to the OEB's Notice regarding the above proceeding to request intervenor status.

### **AMPCO's Interest**

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO was approved by the OEB as an intervenor in Bluewater's 2013 Cost of Service proceeding.<sup>1</sup>

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

Bluewater is requesting approval of its proposed service revenue requirement of \$27,672,099, an increase of 26.8% from its 2013 OEB approved service revenue requirement. As part of the application, Bluewater filed its first Distribution System Plan covering a five-year forecast period

(2023-2027). AMPCO is intervening to review and assess the main drivers of the increase and generally to represent the interests of large use customers in this process.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter.
