**EB-2022-0200 Enbridge 2024 Rebasing Application
Pollution Probe Intervenor Request**

Dear Ms. Marconi:

Pollution Probe received the notice for the above noted proceeding and hereby applies for intervenor status and requests that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe represents a direct consumer and policy interest related to this proceeding.

Pollution Probe is a frequent intervenor in Board proceedings, including Enbridge rates applications and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/759269/File/document>

Pollution Probe intends to actively participate in all aspects of this proceeding including a focus on O&M/capital expenditures, asset management plan (and related OEB IRP requirements), Energy Transition Technology Fund, clean energy proposal (e.g. RNG), integration of storage operations, costs/benefits allocated to regulated and unregulated storage, incentives rate mechanism, rate harmonization and proposed policy changes related to harmonization.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.
