**RE: Letter of Intervention for proceeding EB-2022-0200 Enbridge 2024 Rebasing Application**

Dear Ms. Nancy Marconi,

The Coalition for Renewable Natural Gas (RNG Coalition) respectfully requests to intervene in proceeding EB-2022-0200 on Enbridge Gas Inc. – 2024-2028 Natural Gas Distribution Rates. All information relevant to our request is contained herewithin.

**Application Number: EB-2022-0200**

**Description of RNG Coalition**

The RNG Coalition is the trade association for the RNG industry in North America. Our diverse membership is comprised of over 350 leading organizations and companies across the RNG supply chain, including waste collection, recycling and waste management companies, renewable energy project developers, engineers, financiers, investors, manufacturers, technology and service providers, gas and power marketers, gas and power transporters, transportation fleets, fueling stations, law firms, environmental advocates, research organizations, municipalities, universities, and utilities. Together we advocate for the sustainable development, deployment, and utilization of RNG, so that present and future generations have access to domestic, renewable, clean fuel and energy in Canada and across North America.

**Interest of RNG Coalition in the Proceeding**

Enbridge Gas' application includes a proposal to create the Low-Carbon Voluntary Program. The program aims to decarbonize Ontario's gas grid by increasing the amount of RNG used in the province. RNG Coalition has over a decade of experience advocating to lower barriers to market access for RNG and developing similar programs throughout North America. Our member companies are largely responsible for the successful implementation of such programs at the provincial, state, and federal level, and look forward to contributing to Ontario's decarbonization goals. RNG Coalition is well-positioned to share our collective knowledge with stakeholders involved in this proceeding and to help Ontario take advantage of the benefits provided by RNG in the province.

**Nature and scope of intended participation**

RNG Coalition intends to participate actively in multiple aspects of the proceeding, with a focus on Enbridge Gas' proposed RNG activities including its Low-Carbon Voluntary Program. We will submit evidence that pertains to the role of RNG in Ontario and its benefits to Ontarians.

**Contact Information**

RNG Coalition requests that further communications with respect to this proceeding be sent to:

Vincent Morales  
Manager of Legislative and Regulatory Affairs  
Coalition for Renewable Natural Gas  
1017 L Street #513  
Sacramento, CA 95814  
United States  
Phone: +1 916. 588. 3033  
Vincent@RNGCoalition.com

We do not seek an award of costs. We look forward to actively participating in this proceeding.

Sincerely,

/v/
