Dear Ms. Marconi:

**Re: Ontario Energy Board File No.: EB-2022-0200  
Enbridge Gas Inc. – 2024 Rebasing Application  
Independent Electricity System Operator – Intervention Request**

The Independent Electricity System Operator (IESO) is in receipt of the Ontario Energy Board's (OEB) Notice for this application and is writing to request intervenor status.

The IESO is responsible for maintaining and administering the Ontario wholesale electricity markets, and directing the operation and maintaining reliability of the IESO-controlled grid. The IESO also has the mandate to ensure the adequacy and efficiency of electricity supply in the province through planning of electricity supply and forecasting demand.

The IESO has a direct interest in this proceeding as its plans and studies are leveraged in Enbridge's application as they relate to the demand for natural gas over the timeframe of the application. In addition, the energy transition has created a need for more coordination between natural gas and electricity planning to ensure cost-effective reliability for Ontarians.

The IESO will not be seeking cost awards and asks that all correspondence be addressed to Maia Chase, Senior Advisor, Regulatory Affairs, at 905-403-6906 and by email at [RegulatoryAffairs@ieso.ca](mailto:RegulatoryAffairs@ieso.ca).

Yours truly,

Beverly Nollert  
Senior Manager, Regulatory Affairs
