Dear Mr. Groendyk:

Re: EB-2022-0026 Application for 2023 Rates

The Ontario Energy Board (OEB) provided a draft Decision and Rate Order and a draft Tariff of Rates and Charges in relation to the above-noted proceeding on 24 November 2022. On 25 November 2022, in its comments on the drafts, Entegrus Powerlines noted that as approved in Entegrus' 2016 Cost of Service (EB-2015-0061), the Tariff of Rate and Charges should contain a "Notes" section at the end of the Tariff of Rates and Charges. However, the "Notes" section is missing from the draft 2023 Tariff of Rates and Charges. Furthermore, the Large Use Standby Charge needs to be updated to the 2023 rate of \$2.6262/kW and the General Service > 50 kW Standby Charge description be added as previously approved and the associated rate be updated to the 2023 rate of \$3.7326/kW.

The Notes section and the Standby Charges have been updated accordingly.

The OEB has now issued a final Decision and Rate Order, together with a final Tariff of Rates and Charges. Copies of these documents are enclosed with this letter.

Yours truly,

Nancy Marconi
Registrar
