Good Morning all;

My Enbridge gas equal billing just went from 78 dollars per month to 145 dollars per month just last august.

This morning at 12:57am I received the update below from Enbridge Gas, I'm sure most of you also received it, they snuck it in while we were sleeping???
How disgusting is that???

Some of the proposed increases are quite substantial and with the recent increase by Enbridge and everything else spiralling out of reach for most people, I can't imagine the OEB approving/justifying this increase.

We need to contact the OEB and Enbridge gas and tell them we have had enough.

Are any of our elected officials keeping an eye on these people??

Happy Saturday.

Regards
Angelo Zeppieri
