Our 2022 equal billing natural gas pymnt was \$102. and previous years even lower. As of Oct. 2022 it increased to \$177. and will continue at that price through the majority of 2023. That's an increase of 43% !!!
How can I, a retired senior with no work company pension and a wife making barely above minimum wage continue to survive with increases like this ?
Seniors are struggling enough with the shortfalls of CPP and OAS. Another increase is going to be extremely harmful to not only seniors but many, many low income families.
PLEASE, PLEASE do not let this increase be implemented !
