Dear Commissioner

I am directly opposed to all rate increases. My natural gas increased this year. How did that get approved? I understand some increase is necessary but what your proposing at this time is outrageous.

Canadians are already struggling to put food on the table let alone now worrying about freezing this winter. We are in a recession or depression I'm not sure which to be honest and to ask for upgrades and new pipe lines now is way to much for Canadians to handle.

If you do go with the increase might I suggest a rebate for the low income Canadians like the one hydro offers. It would go along way in a good will gesture on your part.

Sincerely
Sylvia Kovacs
