As outlined in Section 21 (4) (b) of the Ontario Energy Board Act, 1998, Peterborough Utilities Incorporated is authorizing the OEB to proceed with our Section 80 submission without a hearing. We feel that no person, other than the applicant, appellant or license holder will be adversely affected in a material way by the outcome of the proceeding because the annual production of the subject electricity generation facilities is an insignificant percentage of the provinces total energy market.

The hydroelectric generation facilities being developed are in keeping with the Province of Ontario's mandate for additional renewable energy.

Additionally, we confirm that there will be no impact to our affiliate Peterborough Distribution Inc or to its ratepayers.

Yours truly,

Keith Rye, C.E.T.
