Dear Sir or Madam,

Re: **Request for Amendment
Generation Licence EB-2006-0191
Yellow Falls Hydroelectric Project**

In November 2006 the Ontario Energy Board (the "Board") granted Yellow Falls Power Limited Partnership ("YFPLP") Electricity Generation Licence EB-2006-01 (the "Licence"). Schedule 1 of the Licence, titled *List of Licensed Generation Facilities*, states that the Licence authorizes the Licensee only in respect to the following:

1. Island Falls Hydroelectric Project, owned and operated by the Licensee at Bradburn Township on the Mattagami River, 16km south of the town of Smooth Rock Falls, Ontario

Since granting of the Licence in 2006, the Island Falls Project has undergone several key changes during its planning and design, including relocation of the dam and powerhouse upstream to a location known as Yellow Falls. As a result of this modification, the Project capacity has been reduced to 16MW, and has the facility has been renamed the Yellow Falls Hydroelectric Project to more appropriately reflect the new dam and powerhouse location.

The purpose of this letter is to request that the List of Licensed Generation Facilities in Schedule 1 of the Licence be amended to reflect the new Project location as follows:

1. Yellow Falls Hydroelectric Project, owned and operated by the Licensee at Bradburn Township on the Mattagami River, 18 km south of the town of Smooth Rock Falls, Ontario.
