Yellow Falls Power Limited Partnership ("YFPLP") has received your 07 May 2009 letter relating to the above-captioned file. The purpose of this letter is to provide the additional information requested in the 07 May Board letter.

YFPLP requests that this matter proceed without a hearing because no other person will be adversely affected in a material way by the outcome of this proceeding. YFPLP has already obtained a generator's licence for this facility on the Mattagami River, and we are requesting only an amendment to reflect the fact that the Project has been re-located 2 km further away from the Town of Smooth Rock Falls.

The changes to Project design that have been evaluated and assessed through a number of other approvals processes including the Ministry of the Environment's Environmental Screening Process, the Board's Leave to Construct process, and the Federal Screening Process.

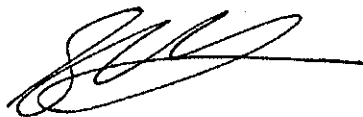

The new project location is on a remote part of the Mattagami River and the amendment does not affect any private lands. YFPLP will be obtaining land use rights for the Project from the Ontario Ministry of Natural Resources.

YELLOW FALLS POWER LP
c/o 34 Harvard Road, Guelph, Ontario Canada N1G 4V8

I trust that the foregoing information addresses your information requirements to dispose of a hearing. If there is any additional information the OEB requires, please feel free to contact me directly at 519.826.4645.

Yours truly,

YELLOW FALLS POWER LP
