Hello, our bill went from \$69.00 per month to \$99.00 per month. That is an extra \$350.00 per year. Now Enbridge wants another increase?

People all over Ontario are struggling to make ends meet as greedy companies are making the average person decide, "what do we have to give up and still be able to survive?" Do we pay our mortgage, utilities or eat this month (and this is a question we have to ask every month).

We are still in the grips of a pandemic and Ontarians are freezing, starving or living in homeless communities (sometimes outside). We should be helping each other. Instead, businesses are just trying to fatten their bottom line. Please do not allow Enbridge to increase their rates as many people will suffer.

Decisions like this could lead to a major recession!

Thank you for your consideration.
