## LETTER OF COMMENT

### Comments:

Inflation is going up for everybody and our gas bill was already raised from \$84 to \$104 and now to \$167. This seems very unfair to seniors. We called to inform that we had installed a high-efficiency furnace and were told by the installer that it should reduce our rates and when we called Enbridge to report this efficiency saving we were told it is unlikely it would make any difference as a new rate rate was planned for January. These rate increases are too substantive and are too frequent.
