According to this link,

<https://www.wsj.com/market-data/quotes/CA/ENB/financials/annual/income-statement>,

in 2021 Enbridge at 20.39% sales growth and 30.22% gross profit. Given that it is financially secure and profitable, increasing pricing to Ontarians who are trying to rebound after 2+ years of financial hardship due to COVID smacks of corporate greed and profiteering. I am seeking to understand why it needs to increase prices for any other reason than to line its own pockets.
