**Subject:** Enbridge Gas rate increase request{80de91cf-69a2-11ed-9b0a-005056aea2fb}

In reference to the subject submission, as an Ottawa area (Stittsville) customer and senior on a fixed pension income I believe this request should be denied.

Given the results of Enbridge's second quarter report (found at link <https://www.prnewswire.com/news-releases/enbridge-reports-second-quarter-2022-financial-results-and-announces-3-6-billion-of-newly-secured-projects-this-quarter-301595853.html>) it is an offense to the people of Ontario that an increase in natural gas rates would be authorized.

Further, avoiding adding additional burdens to an already strained personal economy system that threatens to undermine the wellbeing of families and individuals demands that the offices of elected officials consider these implications in their decisions.

Please, refuse Enbridge's request.

Thank you  
F. Aubrey Robertson
