Subject: Enbridge Rate Hike{e952570d-69ab-11ed-9b0a-005056aea2fb}

Hi. I cannot see any justification in a rate increase, natural gas prices are at or about the same as they were at the beginning of the year. Consumers are facing enough problems with all the other things that are going up without our heating bills being jacked up as well.
Do the right thing and protect us from price gouging .

Ian White
